

## The Smooth Juicer

**The easiest way to take care of your family by providing good nutrients**

This „Smooth Juicer“ does not grind fruits but gently presses and squeezes them; thus the flavor and the nutrients of the fruits are maintained as they are.

If you give your fresh fruits and vegetables into the smooth juicer, your body absorbs all the healthy nutrients faster than the conventional consumption. Your body becomes revitalized without delay, which has a pleasant effect, especially in stressful situations. This is especially true for children.

### Product specifications

Product name		Electric Juicer
Model		HD-8800
Rated Voltage		200 - 240 V / 50 - 60 Hz
Rated consuming power		200 W
RPM		47 RPM
Cord Length		1.3 m
Weight		6.45 kg
Packing dimensions	Width	540 mm
	Length	280 mm
	Height	310 mm
Recommended operating time		Maximum 30 minutes (without interruption)

The preparation of healthy drinks and small dishes using the gentle juicers is very comfortable and time saving. Also, it is a lot of fun to test new flavor combinations!
