UCE-9000 Turbo
UCE-11 Turbo

Introducing the all new state of the art Tyent UCE-9000 / UCE-11 Turbo Water Ionizer

While the water ionizer industry was busy trying to keep up with our award winning MMP range, we were busy creating a new masterpiece. A water ionizer that pushed technology and style further and the result is the UCE-9000 / UCE-11 Turbo an under sink water ionizer with no comparison!

STATE OF THE ART TECHNOLOGY

State of the art technology, groundbreaking design, improved levels of functionality and performance!

Tyent designs and creates water ionizers using the latest technological advances whilst also bringing to life home appliances of real quality and functionality.

ONE TOUCH – EVERYTHING AT YOUR FINGERTIPS!

The industry's first ever full Colour LCD touch screen

Automatically activate your ionizer with just a touch of the screen making it easier and quicker to use.

Revolutionary 262K Colour LCD Display

The ultra sharp high resolution display communicates with you in crisp, clear colour from any angle with perfect accuracy.

Simple, yet powerful

The new interface maintains Tyent's signature simplicity but underneath lie's the power to interact with state of the art technology which gives you easier and faster control.

JOG DIAL & TOUCH

JOG DIAL & TOUCH works the way you want JOG

Use the UCE-9000 / UCE-11 Turbo the way you want by either twisting the jog dial or the one touch system making it more convenient for you.

WE PUT THE ENVIRONMENT FIRST

Our Eco Mode is environmentally friendly with a special ultra low power energy saving mode so when you're not using your ionizer; it's not using any power

WHAT'S UNDER THE HOOD

Upgraded TURBO Function

To continually offer you the very best we have developed an upgraded SMPS Power Supply system which ensures you receive the highest levels of Alkaline and Acid Water from our Turbo Feature.

More power to your plates

Our patented SMPS Power Supply System has also been upgraded increasing the power output to your plates giving you consistent, stable results at all levels of water.

9 resp. 11 Enhanced Mesh Plates

Improved electrolysis efficiency produced by 9 resp. 11 round mesh plates which consistently produce the water you need.

SMARTER. SIMPLIER. AND FULL OF GREAT IDEAS.

The New UCE-9000 / UCE-11 Turbo is bursting with new innovations to make your life easier:

The LCD Screen has an automatic light change feature and screen detection so you always know what water your getting

A voice guided operation system with MP3 sound quality

Multi Language support has now been included featuring a selection of 6 different languages: (list languages)

An integrated temperature sensor for safe use to ensure water used stays within the normal operating range of 4-35°C

An automatic shut off valve to prevent unattended use. After 15 minutes of continuous use the machine automatically shuts off and goes it eco mode.

Our fully automated electrolysis tank cleaning function cleans the engine of your water ionizer which just means no hassle operation for you.

The automatic memory function stores the last selected level and displays it on the standby screen.

Our cleverly angled water spouts allow you to fill up anything, anywhere without it getting in the way making it easier to use.

THE HIGHEST LEVELS OF WATER FILTRATION

Our filters offer perfect, seamless elimination of foreign substances including residual chlorine, organic & inorganic compounds and heavy metals and all this is done through the filtering process using functional UF and p Ceramic materials which also enhances the quality of the water produced.

HASSLE FREE OPERATION FROM INSTALLATION TO AFTER CARE

Real Time Filter Indicator and Filter Replacement Time Guide

Monitor your filter usage through the LCD Screen in real time. Along with automatic voice guide and screen prompt when a filter change is necessary.

Super Simple Filter Replacement System

We have designed an easier to use filter replacement system making it faster to change your filters.

Self Diagnosis Function

Your new intelligent ionizer can self diagnose and will alert you through a warning on the screen and a voice prompt.

Thank you!
